### WARREN TWP. LIONS TO GIVE MINSTREL SHOW

COMMUNITY HOUSE AT PUTNAMVILLE WILL BE CROWDED

According to all indications, Putnamville is going to be the scene of some hilarious entertainment on Wednesday evening. At that time the Warren Twp. Lions Club will stage a Minstrel Show at the Putnamville Community House.

Members of the club have been working hard for the last two weeks and believe they have gotten together a very good show. They feel that it will be particularly pleasing as they have edited their own material and are producing it without any outside assistance. However, special musical entertainment is being provided by two talented outside groups, which should make the program a complete success.

As an added attraction, Strangler Lewis, famous ex-wrestler, who will be in Putnam County that day, is expected to be present to speak. It is planned to have him give a talk at 7:30, and to follow with the Minstrel Show at about 8:00.

Members of the Warren Twp. Lions Club are anticipating a capacity crowd for the occasion and are confident that the audience and cast alike will be treated to an unusually entertaining evening.

**Will Denounce License Racket**  
INDIANAPOLIS, April 2 (INS)—The Indiana Pastors' Conference, which meets in Indianapolis late this month, will be asked to adopt a resolution denouncing the state-wide clerks office marriage license racket.

Dr. Anthony Neengs, pastor of the First Presbyterian Church of Richmond, announced he would sponsor the resolution asking the General Assembly to bar county clerks from issuing anything but the \$2 licenses. The resolution also would ask that clerks be required to provide couples with certified copies of licenses.

The Rev. Milton of Richmond, president of the Richmond Ministerial Association, recently blasted the "enforced" sale of embossed certificates in the Wayne County clerks office.

The minister charged that his brother, Francis Davis, of Rockland, Mich., was refused a license in Richmond unless he would pay \$5 for the license and an embossed certificate.

### JACK COFFEY COMPLETES 43 YEARS WITH PENNSY RAIL LINE

On Saturday, Jack Coffey completed 43 years service with the Pennsylvania railroad. Since 1912 he has been with the signal department and has been in charge of the automatic signals between Effingham and Indianapolis since 1916. He has been in charge of the signal maintenance crews. He has signal men and testers in various places, including Plainfield, Coatesville, Greencastle, Brazil, Terre Haute, Martinsville, Ill., Casey, Ill., and Waveland.

Mr. Coffey is widely known in Greencastle and in railroad circles. He has a loyal working crew and often goes to bat for them in high places. He started his work with the Pennsylvania as a section worker, when a mere lad. He applied himself diligently and was soon advanced to the job of track foreman when his regular boss left for other work. He continued as foreman until placed in the signal department and soon rose to the head of this department, where he has remained for more than 25 years.

He and his crew keep the automatic signals working and this includes the lights along the system, such equipment as the automatic gates at Bloomington street and other crossings and in fact all signals. They do the work of a score or more of men who used to operate them. They are all automatic and thus the element of human error in operating their trains.

Mr. Coffey is loyal to Greencastle. He has reared and educated three children, Jack, Richard and Mrs. John Eiteljorge. All were educated in the Greencastle schools and Jack was graduated from Indiana State Teachers college and is now with the Stewart Warner Co. as one of their top flight salesmen. Richard was graduated from DePauw and is with the American Tag Co. at Memphis. Both served in World War I. Jack in the navy and Dick in the air force.

Mr. Coffey's mother, Mrs. Dica Coffey lives at Terre Haute and is active and interested in everything around her at the ripe old age of 85 years. Mr. Coffey sees the humorous side of most everything, tells many an interesting story and always has a smile and a warm greeting for his friends.

### FULL SCHEDULE FACED COUNTY BOARD MONDAY

REGULAR BUSINESS AND FLOYD TOWNSHIP HEARING ON TAP

The Putnam county commissioners convened their regular monthly session at 9 o'clock Monday morning instead of the customary 10 a. m. opening time. The earlier hour was deemed necessary due to the heavy schedule facing the county board.

The commissioners took up their routine business which included allowing of claims. Following their regular work, the board was to resume the continued hearing on the petition to abandon Floyd township which got underway at the court house Friday.

The hearing Friday had to be transferred from the commissioners' room on the second floor to the Putnam circuit courtroom on the third floor as result of the large crowd which assembled.

Something new was added to the plan to abolish Floyd township over the week-end. A petition was reported in circulation to add the entire township to Marion instead of making the north half a portion of Monroe and the south half a part of Marion.

It was said the petition was in general circulation over the section that would be joined onto Monroe township and had been signed by more than 80 freeholders at a late hour Sunday night.

### EXTRA!

PARIS, April 2.—(INS)—Gen. Dwight D. Eisenhower took over active operational command of all Atlantic Pact forces in Europe today and indicated impatience with U. S. congressional debate of the troops-to-Europe question.

"I deplore," said Eisenhower, "anything that indicates any reluctance to get into this pool of cold water up to our necks."

WASHINGTON, April 2.—(INS)—A secret U. S. experiment successfully containing multi-million degree temperatures in a vacuum chamber today was reported to confirm Argentina's announcement that sun-like heat can be created on earth. One government scientist said the temperature was achieved in an extremely small quantity of material, and that whether the energy process of the stars can be charted is still a big question mark.

WASHINGTON, April 2.—(INS)—French President Auriol denounced isolationism and neutrality as moral absurdities and historical nonsense today before a Congress debating the extent of U. S. participation in the fight against Communism.

M. Auriol's outspoken address was his last official gesture before leaving Washington, where he has been a fete guest for the past six days.

The French president spoke just hours before the Senate was to vote on the vital "troops for Europe" issue.

WASHINGTON, April 2.—(INS)—The government revised its rubber allocation order today and banned spare tires in new automobiles.

**Five Killed In Head-On Crash**  
Five persons, including four members of one family, were killed near Muncie yesterday in Indiana's third serious multiple-fatality traffic accident in less than two weeks.

A head-on collision which killed four members of the Charles Acker family of New Castle and Edward Selvy, 27, Albany, boosted the Hoosier week-end violent death toll to at least eight.

It also raised to 14 the number of deaths in three accidents in central Indiana since March 20. Five teen-agers were killed by a train in Indianapolis week before last, and four members of a Lebanon family were killed by a train near Lebanon a week ago.

Dead in the Muncie collision were Acker, 27, his wife, Helen, 29, their son, Charles 7, and their daughter, Connie, 4, and Selvy. Critically injured were another Acker child, Carol 5, and Selvy's brother, John, 26.

### CHINESE REDS BUILDING UP BIG OFFENSIVE

ALLIES EXPECTING LARGE-SCALE ATTACK BY COMMUNISTS

TOKYO, April 2.—(UP)—Tank-tipped U. S. patrols for the third straight day shot their way north of Korea's 38th Parallel today, through Chinese rear guards screening a big Communist offensive build-up.

One tank patrol northeast of Seoul penetrated at least two miles beyond the Parallel into Communist North Korea before returning to the main American lines just south of the pre-war frontier for the night.

Front dispatches said other "American Scouts" rolled a mile north of the Parallel to the Yongpyongchon River, also northeast of Seoul.

On the east coast, the South Korean Capital Division spent patrols roaming 12 miles north of the Parallel. The division crossed the old frontier in force last week.

Only on the central front were the Chinese Reds fighting hard to keep the 8th Army away from the Parallel. Chinese entrenched on high ground north of Chunchon all but stalled the allies three to five miles from the former boundary.

It is on the central front that the Reds are expected to unleash their all-out spring offensive in an attempt to split and break through the United Nations line.

The Chinese were reported massing 40 to 45 divisions—more than 300,000 men—for the assault. Some 2,300 or more Communist vehicles were spotted from the air last night moving up supplies and reinforcements. It was the heaviest enemy traffic of the war.

Allied air fleets ripped into the supply columns both by night and day. At least 150 vehicles were destroyed or damaged in a little more than 12 hours.

Gen. Douglas MacArthur warned in his daily communiques of the ominous increase in Communist traffic. He said the majority of vehicles delivered their cargoes to the Chorwon-Kumhwa-Havachon triangle just north of the 38th Parallel behind the central front.

All signs pointed to an impending Chinese attempt to break through the center of the line with "human sea" tactics such as rolled back the 8th Army 60 miles last New Year's Eve.

**PROPOSAL REJECTED**  
WASHINGTON, April 2.—(INS)—The Senate today rejected, 16 to 44, a proposed troops-for-Europe amendment stating that no more than four divisions should be sent without "further congressional approval."

This all came about as two hardy nimrods braved the snowy weather and ventured out to Albion Pond. O. J. (Hardwater) Stewart, and Ted (Moneybags) Brown were on the business end of their Shakespeare glass rods, and managed to get a quartet of beautiful Largemouth Bass on the other end. The four bass weighed approximately fourteen pounds. Buttons have been flying from their vests all week, hence the supposition of a completely new outfit. through off-the-road mud... Economy Run drivers kept daily records of every penny spent for gas, oil, maintenance and repairs.

The result: overwhelming new evidence that Ford Trucks with the POWER PILOT save you money every mile! Ford Truck POWER PILOT gives you the most power from the least gas!

## Bridge Wrecked By Stolen Car

CONNERSVILLE, Ind., April 2.—(UP)—Traffic through Fayette county was re-routed today while workmen cleared debris from what was once a 150-foot bridge spanning Big Williams creek three miles south of here on Ind. 121.

At the same time, state police searched for the occupants of a

stolen car which crashed into one of the bridge supports and caused the structure to collapse and topple into the water.

Troopers said a car containing a man, woman and young girl skidded into the support on wet pavement yesterday, setting off a chain reaction of falling girders and timber on the 64-year-old span.

The car, which was demolished, bounced and skidded to the north bank after the impact.

When the three disappeared after receiving treatment for

minor injuries at a Connersville hospital, state police checked the car's license plates in an effort to find its owner. They said it belonged to Elmer Heit, Melbourne, Ky., and was stolen March 28 at Cincinnati, O.

Also sought was an unidentified motorist who drove the three here after the accident.

## Two Saved From Lake Michigan

GARY, IND., April 2.—(UP)—

Two 25-year-old Gary fishermen recovered from shock and exposure today after a dunking in icy Lake Michigan while

Coast Guardmen and police hurried to their rescue.

Edward Syzanski and Rudy Bartholomew were tossed into the choppy water yesterday when their boat capsized about three blocks off the Gary shoreline. They floated and paddled ashore while rescuers, alerted by radio and television star Tammy Bartlett, sped to the

scene. Bartlett sighted an oil slick left by the motor of the overturned craft and the fishermen clinging to their boat while returning from Grand Rapids, Mich., in his Cesena plane.

His radio report to the Civil Air Patrol led to the discovery of the boat. Bartlett, who was flying over the area, saw the boat and the fishermen. He landed and helped them out of the water. They were taken to a hospital and are now recovering from their ordeal.
